Main components

Aluminum foil bags * 10, Test cards * 10, cotton toothpick * 10

Intended Use

Suitable for the qualitative detection of Helicobacter pylori in dental plaque samples in the oral cavity.

-  simple to operate
-  clean and hygienic
-  convenient and efficient

Convenient Procedure

Choose us

Helicobacter pylori is closely related to a variety of gastric diseases, such as chronic gastritis, peptic ulcer, gastric cancer, etc.

Detecting Helicobacter pylori helps doctors identify the cause of the disease and formulate targeted treatment plans.

For patients diagnosed with Helicobacter pylori infection, standardized antibacterial treatment is usually required to eliminate the infection and prevent and treat related diseases.

Helicobacter pylori Staining Test Kit

Medical-Grade Sanitary Pads

Safety, Comfort, and Trust for Every Woman

Quality You Can Trust

- Hygienic, skin-friendly design
- Clinically tested for safety
